Co-Chairman's Message

Dear Shareholders

Warm Greeting to all of you

The fiscal year has been a very challenging year for the Company. Despite global and domestic challenges of High interest rates, inflation, weakening of the rupee, volatility in the cost of raw materials, prices of crude oil, uncertainty in fuel policy, your Company has grown satisfactorily, through its strategic focus by delivering continuous innovations in products, distribution and customer relationships. This has required committed investments in the brand, technology and talent of our people.

I am pleased to share with you the progress made by your company during the year 2012-2013. The Company generated significant amounts of cash, strengthened its balance sheet and financial position and most importantly continued to return value to its shareholders.

Your company implements best standards of Corporate Governance through emphasis on authority and freedom of management coupled with transparency, accountability and professionalism in their working with the aim of enhancing long term economic value of all the stakeholders and the society at large.

N. D. Relan

I believe that a team of inspired employees is the key for achieving greater heights in excellence by any organization and for that reason the Company gives utmost importance to its Human Resource Development. For this purpose, the Company continues to take various HR initiatives for employee motivation, nurturing talent, enhancing skills and building new leaders. I am sure you will agree that this is equally important as is setting up of new facilities.

I gratefully acknowledge the unstinted support of all the Board Members and Managerial Personnel, the Staff Members each and every member of the SMIL family for their untiring efforts in making the Company what it is today. I cannot forget our customers, vendors and suppliers for reposing strong confidence in the Company. I also acknowledge the kind cooperation and support of bankers. Last but not the least, I sincerely once again thank all the stake holders for supporting and encouraging in Company's endeavour.

Managing Director's Message

Ajay Relan

Dear Shareholders

The year gone by has seen many economic and business challenges globally as well as in the country. The country's GDP growth rate slipped below expectations reflecting the economic slowdown. Continuing inflation, high interest rates, volatile forex markets, Government Policy issues and bearish capital markets affected the Indian industry, and in particular the Automobile Sector.

Despite this difficult environment, I believe that the automotive industry has huge growth potential and is bound to grow on the back of supportive government policies, positive business environment and availability of reasonably priced talented manpower.

The Government of India is formulating National Electric Mobility Mission Plan 2020 and National Automotive Board among others for achieving the sustained growth of the automotive industry. Therefore, the need of the hour for auto component companies is to continue making investments to create additional capacities for taking advantage of their position, once the economic trend reverses.

I believe that the coming decade will also bring new optimism and an improved platform for business.

It is this conviction that gives me the confidence that we will achieve our future business plans successfully.

Your Company has continued its efforts in this direction by making investments towards setting up new plant, up-gradation of its Research and Development facilities and modernization of its existing manufacturing facilities. We are confident that our large capital expenditure will enable us to take full advantage of our market leadership position and achieve our growth plans .

In the end, I would like to take this opportunity to thank all our customers, employees for their support in helping to make the coming years more successfully.

On Behalf of the Board, I sincerely thank our Investors and Shareholders, for their continued support and reaffirm our commitment to deliver an improved performance during the current financial year.

ANNEXURE TO NOTICE**Explanatory statement pursuant to Section 173(2) of the Companies Act, 1956****ITEM NO. 7**

The Members of the Company at their 23rd Annual General Meeting held on 4th August, 2008 approved the appointment of Shri N. D. Relan as Whole Time Director of the Company for a period of five years with effect from 1st July, 2008 to 30th June, 2013 on the terms of remuneration as detailed in the resolution under Item No. 7 of the Notice of the said meeting.

The present tenure of Shri N D Relan as a Whole-time Director shall be completing on 1st July, 2013 and during his tenure the Company has registered all round progress. In view of the continued growth of the Company's business activities, it is felt desirable to re-appoint Shri N D Relan as Whole-time Director of the Company for a further period of five years.

The Remuneration Committee and the Board of Directors in their meetings held on 28th May' 2013, had approved the re-appointment of Shri N D Relan as Whole-time Director of the Company, subject to the approval of the members in the general meeting, for a further period of five years with effect from 1st July' 2013. It was also approved in the above said meetings that his remuneration package should be revised in the light of present conditions with effect from 1st April, 2013 on the terms and conditions as mentioned in the proposed resolution herein above at item No.7.

The Board of Directors of your Company, therefore, recommends the passing of Special Resolution as set out at item No. 7 of Notice convening the meeting.

None of the Directors of the Company is interested in the above resolution except Shri N. D. Relan himself and Shri Ajay Relan, Smt Sharda Relan and Shri Rohit Relan as relatives to them.

ITEM NO. 8

As the members are aware, the Board of the Company is benefited by the presence of Non Executive Directors who are persons of eminence, possessing wide and rich experience of managing large and successful corporate(s).

The prevalent Corporate Governance norms call for greater participation, involvement and commitment of these Non Executive Directors. Keeping the same in mind, consent of the Company was accorded under Section 309(4) of the Companies Act 1956 for payment of Commission to Non Executive Directors Smt. Sharda Relan & Shri Rohit Relan in the 23rd Annual General Meeting of the company on 4th August 2008 for a period of five years commencing from the financial year 2008-09 and the tenure of the said approval has completed on 31st March 2013.

So now it is felt desirable, in view of the time spent and responsibilities undertaken by Smt. Sharda Relan & Shri Rohit Relan, Non Executive Directors of the Company, that the payment of Commission to them should be continued. Therefore, the Remuneration Committee and Board of Directors at their meetings held on 28th May 2013, subject to approval of shareholders, approved payment of Commission to Smt. Sharda Relan & Shri Rohit Relan, Non Executive Directors of the company for a further period of five years commencing from 1st April 2013 provided that the maximum amount of commission that may be paid to them in any financial year shall not exceed 1% of the profit computed in accordance with the provisions of Section 309 of the Companies Act, 1956.

The Board of Directors recommends the special resolution for your approval.

None of the Directors of the Company is interested in the above resolution except Smt Sharda Relan, Shri Rohit Relan himself/herself and Shri N. D. Relan and Shri Ajay Relan, as relatives of them.

ITEM NO. 9

As you are aware that the shares of your company are listed with Delhi Stock Exchange ("DSE") since the beginning but from last many years there is no trading platform available to the public shareholders on DSE. This has put the public shareholders in lot of hardship and inconvenience. So with a view to provide proper liquidity and free tradability in the company's shares, your company has got listed its shares on Bombay Stock Exchange ("BSE") in May 2013.

Now in order to streamline administrative procedures and to reduce management costs, it is proposed to get the shares de-listed from the DSE. However the shares of the company will remain listed on BSE. The approval of members sought to be obtained for voluntary de-listing of shares of the Company from said exchange.

The Board of Directors of your company, therefore, recommends the passing of the Special Resolution set out at item no 9 of the notice convening this meeting.

None of the Directors of the Company is in any way, concerned or interested in the resolution except to the extent of their shareholding in the Company, if any.

MANAGEMENT DISCUSSION AND ANALYSIS

The objective of this report is to share and keep you abreast with the happenings and transformations occurring within the Company, in industry and economy, manufacturing processes, technology and overall business strategies.

Among other things, the management discussion and analysis report provides an overview of the previous year of operations and how the company fared. It also provides an insight of the coming year, outlining future goals and approaches to new Project.

We begin with a general review of the industry, macro economy followed by the operational and financial details of the company including details of its human resources, research and development activities.

A. INDUSTRY STRUCTURE, DEVELOPMENTS AND OUTLOOK

Automotive industry is the key driver of any growing economy. on account of its deep forward and backward penetration into every segment of the economy, the industry has a strong and positive multiplier effect and thus propels the progress of a nation.

The automotive industry comprises of the automobile and the auto component sectors. It includes passenger cars; light, medium and heavy commercial vehicles; multi-utility vehicles such as jeeps, scooters, motor cycles, three wheelers, tractors, etc; and auto components like engine parts, drive and transmission parts, suspension and braking parts, electrical, body and chassis parts; etc.

The Indian automotive industry has made rapid strides since delicensing and opening up of the sector in 1991. It has witnessed the entry of several new manufacturers with the state of art technology, thus replacing the monopoly of few manufacturers.

The norms for foreign investment and import of technology have also been liberalized over the years for manufacture of vehicles. At present, 100% foreign direct investment (FDI) is permissible under the automatic route in this sector, including passenger car segment.

Overall Indian Automobile Industry has shown marginal growth in FY 2012-13 compared to the last FY 2011-12. According to Autobei Autobus Consulting Group (ACG), Production and Domestic sales have registered a growth of 1.20% and 2.61%, however exports have shown negative growth due to negative global environment and fluctuations.

One of the hot spot in world automotive industry is the Indian car market. The Indian car industry is going thru turbulent times. Car sales are down by more than 6% in FY 2012-13 compare to last year of FY 2011-12. The main reasons are high interest rates, fuel price, high inflation, low movement in other sectors etc. Utility vehicle segment is having maximum growth in this segment.

The Indian economy is expected to grow at a higher rate during 2013-14. however due to higher borrowing cost adverse currencies fluctuation and surge in commodity and fuel prices, the growth in automobile industry is moderate during the current fiscal year

B. OPPORTUNITIES & THREATS

OPPORTUNITIES

The fortune of the Auto Component Industry is closely linked to that of the Automobile Industry. Your company has developed a comprehensive range of products for existing customers, which enable us to obtain additional business from existing clients as well as new clients, and also believe that ability to be accessible to customers, flexible approach & ability to meet the customers requirements and positive attitude in servicing customers has helped increase customer satisfaction levels and is a competitive strength.

Strong demand from the OEM segment remains a key driver for the Auto Components Industry. While the global turmoil and tight liquidity conditions caused a major challenge to the Auto Components Industry, there are visible signs of a recovery.

As has been the trend, Domestic Automotive OEMs will continue to constitute majority of the demand. Nevertheless, with increasing number of International OEMs setting up their manufacturing base in India, the percentage share from them is expected to increase. Increasing collaboration with auto component manufacturers across the automotive value chain, especially the designing and engineering segments is expected to support the growth of the industry.

In addition, the ability to provide operational efficiency, cost benefits and innovation for reducing vehicle weight and costs will be the key to sustenance for Indian Component makers like your Company.

Supportive Government policies, a positive business environment, availability of reasonably priced talented workforce and stable outlook for the industry has made India a global hub for the International Manufacturers to set up their facilities in the country.

Some driving factors of The Indian auto component industries are

- Proficiency in technical know-how facilitated re-engineering capabilities in line with customer demands
- Enhanced automation • Flexibility of production in terms of batch size and enhanced capacity utilisation.
- High competence in design, development and simulation attracting new international buyers
- Enhanced product and process integration using India's IT-based engineering solutions and a qualified trained workforce
- Access to cutting-edge global technologies, comprising ISO/QS certifications benchmarked in line with global standard

THREATS

The auto component industry has been exposed to many threats of varying intensity. The hardening of interest rate, tightening money supply, volatility in the price of raw materials and other inputs, currency fluctuations, OEM's demand for price reduction, stiff competition because of the entry of Multinationals and their home country partnerships, and stringent emission norms are the major risks and challenges faced by the Companies. It is forcing Companies to plan operations effectively and produce quality components at lower costs.

steel is the key input for Auto Component industries, and any increase in raw material price has a direct bearing on selling price. However, most of our customers have an agreement to compensate us for increases in the price of steel, and hence we remain insulated to that extent.

Some other threats for auto component industry are as hereunder:

- Slow down in US, Europe and Indian economy could affect the sales of the Company
- Fluctuating crude price could impact the margins of the Company.
- Hardening of Indian rupee in future will affect the Company's competitiveness in the export market and profit performance.
- Power shortage is a major concern for the Company
- The cost of import is going up and putting pressure on margin
- In the line of WTO directions, import duties were lowered for automotive components, which resulted in competition from the overseas players from low cost countries. Depreciation of rupee is attracting more overseas customer from exports markets
- Increase in Inflation, Tightening of liquidity position and Hardening of consumer interest rates will adversely affect the domestic automotive market

C. SEGMENT-WISE / PRODUCT-WISE PERFORMANCE

Segment-wise performance has been reported on Annual Report for the year ended 31st March, 2013.

D. RISKS AND CONCERNS

Risk is an integral part of the business process.

The Company is exposed to external and internal risks associated with the business. The operations of the Company are directly dependent on the Automobile manufacturer's (OEMs) growth and business plans. General economic conditions impact the automotive industry, and in turn, the operations as well. To counter these risks, your company continues to broaden the product portfolio, increase customer base and geographic reach. The Company is exposed to strong competitive pressures from both domestic and overseas. Your company's established reputation, close customer relationships, ability to provide higher level of engineering, design support and relentless drive for improvement gives it a competitive edge. The Company is also exposed to financial risk such as changes in interest rates, foreign exchange rates and commodity prices. In order to address these risks the company has been implementing adequate risk management approach.

To enhance the risk management process, the company has mapped the risks. A system has been formulated based on Balanced Score Card with various appropriate measures and accountabilities to identify, assess, prioritise and mitigate the risks. Reports generated from the system are monitored regularly to ensure that appropriate corrective actions are taken. The management of your Company is continuously analyzing and evaluating the various risks associated with the Company's business and has adopted risk management practices to minimize the adverse impact of these risks on the business and transfers risk to opportunity.

The Company is exposed to the Following risk as under:

Business risk: are inherent in automobile industry due to economy's growth, risks of technological obsolescence due to stricter emission/safety norms and more intense competition. Other potential risks include disruption in production due to act of God and man-made. All these risks are continuously addressed in the business plans-both long term as well as short term; risk mitigation strategies are drawn up and acted upon.

Financial risk: Availability of credit at affordable interest, fluctuations in price of raw material in the domestic/international Market and price reduction demanded by OEMs is area of great concern.

Manufacturing risk: The Company manufactures its products at multiple locations and its operations could be affected by disruption in its supply chain due to any natural calamities and work stoppages at its suppliers' end due to load shedding, labour problems, etc.

Assets risk: include threat to physical assets through accidents, natural calamities, obsolescence, etc. The Company has an internal system to assess these risks, define the limits of exposure for operation and take appropriate insurance cover.

Input Costs: Input costs on account of commodities like steel, non-ferrous, precious metals, rubber and petroleum products have risen over the year and resulted in higher input costs. While the Company Continues to pursue cost reduction initiatives, rises in commodity prices and other costs resulting from inflationary pressures, could impact the Company's profitability to the extent that the same are not absorbed by the market through price increases and/or could have a negative impact on the demand. In addition, because of intense price competition and the high level of fixed costs, the Company may not be able to adequately address changes in commodity prices even if they are foreseeable.

Completion Indian automobile Industries is expected to be one of the fastest Growing Market in the World, Many global player are significantly expanding their presence in India. There is a concern that this will result in an even increasing level of competition and intense pressure on the profit margin of all participants.

Exchange Rates: The Company's operations are subject to risk arising from fluctuations in exchange rates with reference to countries from which we procure our input material. These risks primarily relate to fluctuations of Indian Rupee against US Dollar, Pound and Euro.

It has got a 'State of Art' manufacturing facilities across thirteen locations in seven states of India. Their production range includes Exhaust Systems, Catalytic Convertors, Suspension Systems, Sheet Metal Components and Plastic parts for the Automotive and White Goods Industries

NOTE 2: BASIS OF PREPARATION OF FINANCIAL STATEMENTS

The financial statements have been prepared under the historical cost convention in accordance with the Indian Generally Accepted Accounting Principles ("GAAP"), mandatory accounting standards as per the Company (Accounting Standards) Rules, 2006, other pronouncements of the Institute of Chartered Accountants of India (ICAI) and other relevant provisions of the Companies Act, 1956 and guidelines issued by the Security Exchange Board of India as adopted consistently by the Company. All income and expenditure having a material bearing on the financial statements are recognized on accrual basis.

NOTE 2.1: SIGNIFICANT ACCOUNTING POLICIES

(a) Use of Estimates

The preparation of financial statements in conformity with Generally Accepted Accounting Principles requires making of estimates and assumptions that affect the reported amounts of assets & liabilities and disclosure of contingent assets & liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting year. Differences between the actual results and estimates are recognized in the year in which the results are known / materialized.

(b) Current-non-current classification

All assets and liabilities has been classified as current and non-current as per Company's normal operating cycle and other criteria set out in the Revised Schedule VI to the Companies Act,1956.

Assets

An asset is classified as current when it satisfies any of the following criteria:

- it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is expected to be realised within 12 months after the reporting date; or
- it is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date;

Liabilities

An liability is classified as current when it satisfies any of the following criteria:

- it is expected to be settled in the Company's normal operating cycle;
- it is held primarily for the purpose of being traded;
- it is due to be settled within 12 months after the reporting date; or
- the company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date. Terms of a liability that could, at the option of the counterparty, result in its settlement by the issue of equity instrument do not affect its classification

Current Assets/ liabilities include the current portion of non-current financial assets/liabilities respectively. All other assets/ liabilities are classified as non-current.

Operating cycle

Operating Cycle is the time between the acquisition of assets for processing and their realisation in cash or cash equivalents.

(c) Fixed Assets

Fixed assets are stated at cost of acquisition inclusive of freight, duties & taxes and incidental expenses related to acquisition up to the date of installation. Cost of Fixed assets are further adjusted by the amount of Modvat/Cenvat credit availed and Vat credit wherever applicable. Fixed assets under construction, advance paid towards acquisition of fixed assets and cost of assets not put to use before year end, are shown as capital work in progress. Interest and finance charges incurred are allocated to the respective fixed assets on installation.

(d) (i) Depreciation/Amortization

- Depreciation is provided at the rates and in the manner as prescribed in Schedule XIV to the Companies Act, 1956 by following the written down value method.

The assets are depreciated by the rate prescribed in schedule XIV of Companies Act, 1956

Particulars	Depreciation Rate in (%)
Office building	5
Factory building	10
Plant & Machinery	13.91
Office equipment	13.91
Computer	40
Furniture & Fixtures	18.10
Vehicle	25.89

- Depreciation is calculated on a Pro rata basis from the date of installation till the date the assets are sold or disposed off. Assets costing individually Rs. 5,000/- or less are fully depreciated in the year of purchase.
- Cost of Leasehold Land is amortized over the period of Lease.

(d) (ii) Intangible Assets

Intangible assets such as technical know-how fees, etc. which do not meet the criterions laid down, in terms of Accounting Standard 26 on Intangible Assets, are written off in the year in which they are incurred. If such costs / expenditure meet the criterion, it is recognized as an intangible asset and is measured at cost. It is amortized by way of a systematic allocation of the depreciable amount over its useful life on straight line basis and recognized in the balance sheet at net of any accumulated amortization and accumulated impairment losses thereon.

(e) Inventories

Raw material, stores and spare parts are valued at lower of cost or net realizable value. Cost includes purchase price (excluding taxes which are subsequently recoverable by the enterprise from the Concerned revenue authorities), freight inwards and other expenditure incurred in bringing such inventories to their present location and condition. In determining the cost, FIFO method is used.

Work in progress, manufactured finished goods and traded goods are valued at the lower of cost or net realizable value. The comparison of cost and net realizable value is made on an item by item basis. Cost of work in progress and manufactured finished goods is determined on FIFO basis and comprises direct material, cost of conversion and other costs incurred in bringing these inventories to their present location and condition.

Scrap is valued at "Net Realizable Value".

Excise duty liability is included in the valuation of closing inventory of finished goods.

(f) Revenue Recognition

Domestic Sales are recognized at the point of dispatch of goods to the customers from factory. The sales are accounted for net of trade discount, sales tax; sale returns but includes excise duty. Export Sales are recognized at the time of the clearance of goods and approval of excise authorities.

Sales include revision in prices received from customers with retrospective effect.

Interest Income is accounted for on time proportional basis. Dividend income is recognized when the right to receive the Dividend is established.

(g) Purchases

Purchase of material is recognized on the basis of acceptance of material at the respective location.

Price revision of material purchased has also been included in purchases. Further adjustments, if any, are made in the year of final settlement.

(h) Foreign Exchange Transactions

Transactions in foreign currency are recorded on initial recognition at the exchange rate prevailing at the time of transaction. Exchange differences arising on foreign currency transactions settled during the year are recognised in the Statement of Profit and Loss.

Monetary items (i.e. receivables, payables, loans etc.) denominated in foreign currencies as at the Balance sheet Date are translated at year end rates. The resultant exchange differences are recognised in the Statement of Profit and Loss. Non-Monetary assets are recorded at the rates prevailing on the date of transaction.

The exchange differences arising on the settlement of monetary items or on reporting these items at rates different from rates at which these were initially recorded/reported in previous financial statement are recognized as income/expense in the period in which they arise.

Company has one representative office outside India is classified as integral foreign operation as those carry on their operations as if they were an extension of Company's operation according to the provision of Accounting Standard (AS) 11, The effects of Changes in foreign exchange rates. The financial statement of an integral foreign operation are translated into Indian Rupees as if the transaction of the foreign operation were those of company itself. Monetary assets and liabilities denominated in foreign currencies as at the Balance Sheet date are translated at year end rates. The resultant exchange differences are recognised in the Statement of Profit & Loss. Non-monetary assets are recorded at the rates prevailing at the rates on the date of the transaction.

In case of forward exchange contracts, the premium or discount arising at the inception of such contracts, is amortized as income or expense over the life of contract as well as exchange difference on such contracts i.e. difference between the exchange rate at the reporting/settlement date and the exchange rate on the date of inception/the last reporting date, is recognized as income/expense for the period.

(i) Borrowing Costs

Borrowing costs that are attributable to the acquisition for construction of qualifying asset are capitalized as part of the cost of such asset. A qualifying asset is one that necessarily takes substantial period of time to get ready for intended use. All other borrowing costs are charged to revenue.

(j) Investments

NOTE 22.1: EMPLOYEE BENEFITS

The company has classified the various benefit provided to employees as under

(i) Defined Contribution Plans

Contribution to Defined Contribution Plan, recognized as expenses for the year are as under :

Employer's Contribution to Provident Fund/ Pension Fund	186.71	169.28
Employer's Contribution to Employees State Insurance Scheme	30.61	36.48
Employer's Contribution to Employees Welfare Fund	0.48	0.33
	217.80	206.09

(ii) Defined Benefit plans

Gratuity Scheme: The employee's gratuity fund scheme managed by Life Insurance Corporation is a defined benefit funded plan. The present value of obligation is determined based on actuarial valuation using the projected unit credit method, which recognizes each period of service as giving rise to additional unit of employees benefit entitlement and measures each unit separately to built up the final obligation. The obligation for leave encashment is a defined unfunded benefit plan, which is recognized in the same manner as gratuity.

Leave Encashment/Compensated Absences: This is an unfunded defined benefit plan.

The following tables summarize the components of net benefit expense recognized in the profit and loss account and the funded status and amounts recognized in the balance sheet for the respective plans (as per Actuarial Valuation as on March 31, 2013).

In accordance with the Accounting Standard (revised 2005), an actuarial valuation was carried out in respect of the aforesaid defined benefit plans based on following assumptions:
